# April 2017

I started as a volunteer when Our Sisters' House opened in 2015. Now I am part of the staff and work on Saturday and Sunday evenings. One of the things I enjoy most is coming in and meeting the residents. I get to learn a little about each of them and what they have gone through. The kids are fun, especially when you have some that are old enough to play and talk with about school. Sometimes you get to play games or have a movie night and that is always a treat. Making menus can be a chore, but they learn to cook all sorts of things. I enjoy cooking a meal occasionally since it is more fun cooking for more than one person. I enjoy all the people I have met here at OSH, the residents, volunteers and other staff.

## House Update

Since our last newsletter, we have had three residents move out and into housing. We currently have 1 adult male, 2 adult females, and 3 children residing with us. Thank you to all that have donated to our family and to those that have helped with our diabetic needs. We received a grant that has allowed us to purchase life skill workbooks for our resident. We are excited about this as these skills are crucial tools that enable our residents to achieve personal growth, learn positive behaviors, and gain independence.
